

## Lower School (Y7-11) More Able Programme

The students of each year group meet for enrichment sessions throughout the academic year. Competitions and opportunities to stretch the students beyond the curriculum will also be promoted and supported.

All communication will be via the appropriate channel of the More Able TEAMS group so please encourage your child to check this regularly.

The chart below shows the programme that took place during the 2024/5 academic year, and gives a sample of what pupils may expect in the current academic year.
